INTRODUCTION

IVO Cabinets & Surfaces is a small, locally owned & operated countertop & cabinet manufacturing company that takes pride in crafting custom cabinetry for our community. We strive to make your cabinets, your way.

Our accrued generational knowledge of the craft originated in the Ukraine and set root in the Mohawk Valley circa 1992. With over 25 years of cabinet crafting knowledge & experience, we would love to share our IVO Cabinetry experience with you.

"Do not neglect the gift you have..." -1 Timothy 4:14

Viktor Dimov - CEO & Business Owner

CUSTOM CABINETRY

Our Custom Cabinets Are Made

In-House From Scratch.

With our custom cabinetry line, we offer a wide range of options to choose from. Let us help you find the styles that fit you best, so you can build your dream space, your way.

Door Styles

Samples included but not limited to*

Shaker

Mullion

Raised Panel

Louvered

From simple shakers to the ornate louvered, IVO can craft match any cabinet door style to fit your needs.

Paints/Stains

NATURAL WOOD

Samples included but not limited to*

Distance

Eclipse

Interesting Aqua

Coastal Plain

Tawny Owl

Stout Maple

Morel Roan

Quarry Cherry

Cigar Box Cherry

Sandpiper Maple

As a custom cabinet manufacturer, IVO can color match any cabinet paint or stain to enhance your unique space. Whether you go with a classic white paint or a natural stain, your cabinetry should reflect your unique taste!

Wood Species

Samples included but not limited to*

Mahogany

Walnut

Cherry

Maple

Considering the right wood species is very important when choosing cabinetry because not all wood is meant to be painted. Tighter grained wood like walnut & cherry are more suitable for paint finishing as they do not require filler to achieve a smooth surface. Open grained woods like hickory & oak present better when naturally stained.

Colors & Textures

ENGINEERED MATERIAL

Samples included but not limited to*

Duke

Celadon

Verde

Ashen

Willow

Wright Walnut

R. Valley Pear

Karuna Ash

Endless Elm

Urban

We offer composite materials such as laminate and HDF (High Density Fiberboard) as an affordable cabinet option for our clients on a budget!

Material Composites

Samples included but not limited to*

PRISM TFL

Thermally Fused Laminate -
Color/Texture

HDF

High Density Fiberboard -
Paint only

Fibrex Paint HDF is offered with life-like woodgrain designs, color or other patterns printed directly onto the substrate to replace decorative papers and vinyls.

- Ideal for cabinet backs, vertical gable and drawer bottom applications
- Recycled/Recovered wood content

ARAUCO Prism® TFL is a surfacing solution that empowers you to harmonize aesthetics, performance, and environmental consciousness. Prism TFL is a truly sustainable surfacing solution. Its' substrates are made from wood fiber sourced from certified, recycled, recovered, and/or controlled sources.

Features

ALL CABINETRY

Soft Close Drawers

Soft Close Doors

Added Depth

Construction

NATURAL WOOD

Natural Plywood
Adjustable Shelving

Natural Interior

Dove-tail Drawer
Box Construction

Hardwood Frame, Doors
and Drawer Fronts

Our custom cabinetry showcases a variety of handy features like soft close hinges and drawer glides for minimal noise & damage when storing and emptying your cabinets. Our all-plywood construction offers a natural interior finish and adjustable shelving.

Storage

Sliding Pantry - A pantry system that slides out completely, with height-adjustable shelves, can accommodate containers of all sizes.

Corner Cabinet Storage - Base corner kitchen cabinets are considered one of the most difficult areas to reach in a kitchen as they are the deepest, darkest and least accessible spaces. Take advantage of the storage space in your corner cabinets with a lazy Susan or a smart storage solution.

Pullout Base Cabinetry Options - Base cabinet pull-outs can be a very practical and efficient way to keep your cabinets organized. These pull-outs can double as storage or provide an efficient & out of sight waste management system.

Accessories

Accents & accessories can make or break a space; browse sleek beauty in our unique selection of cabinet hardware & storage options to complete your design.

DESIGN

With years of experience designing and installing cabinetry for both residential and commercial application, we create distinctive kitchen and bath designs to meet your style and needs.

Bring your vision to life with IVO's design packages! From space planning to photorealistic renderings to 360° panoramas, our designers are equipped to give you your dream space!

Design Packages

Using modern day technology such as 2020 Maker & laser templating, we are able to simulate exactly what your space can look like!

Elite Package - \$599

Using advanced tools, our design team can provide you stunning kitchen & bath designs in real time. Our design package is formulated to give you exactly what you need to achieve the perfect look!

We offer services from floor plan & elevation graphics to material boards. All design package fees go toward future projects & are nonrefundable otherwise.

In Home Measure

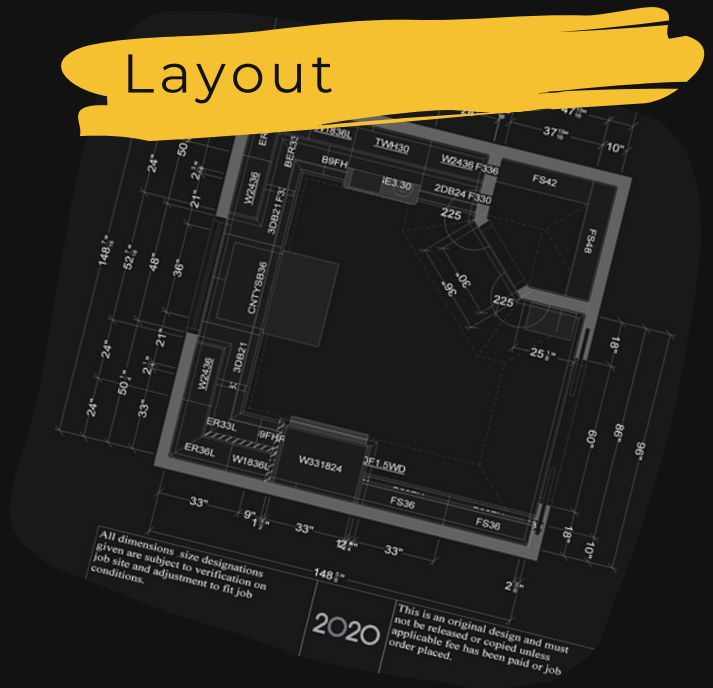

Setting up an in home measure appointment provides us with the exact measurements we need to manufacture & install your custom cabinets accurately. This process comes in handy when cabinets are installed in non-standard sizes and when we need to digitally create your layout.

Layout

Adjust your layout design until you love it! Our layouts map exactly where each cabinet is going to be installed. Our design team takes great effort in making sure your space looks great, but is also fully functional!

Note: *Our cabinets are fully customizable and are not limited to kitchen & bath spaces. If you can dream it, we can build it!*

With our design package, you can revise and revisit measurements, layouts & renderings as many times as needed to make sure you have the perfect design. Find out if our design package works for you - see our design team for more details.

Ivan Dimov - Cabinet Craftsman

Where We Started

Many years ago, Ivan, a skilled carpenter from Ukraine emigrated to the United States with his family & opened a custom wood shop in Newport, NY. While learning the trade himself, his knowledge slowly trickled down to his sons, who eventually would follow in his footsteps.

In 2012, Ivan & his sons Viktor & Oleg combined their names to create a countertop fabrication company called, "IVO Granite."

A few years later, cabinet remodeling sky rocketed, merging cabinet production into the business. With increasing demand for cabinets, IVO Granite became IVO Cabinets & Surfaces.

What began as a small woodshop out of Newport, NY, IVO Cabinets & Surfaces has now expanded to a much larger location in Utica.

IVO Custom Cabinet Woodshop - Newport, NY

Where We Are Today

After establishing a successful decade in the area, our custom cabinet products are now manufactured utilizing a new cabinet manufacturing program!

At IVO Cabinets & Surfaces, we utilize an advanced Cabinet CNC manufacturing process that combines craftsmanship with cutting-edge technology. We use CNC programming to precisely cut, shape, and assemble cabinet components. This method ensures that each cabinet we produce is of the utmost quality and durability.

While we've dedicated our efforts primarily to residential remodeling, we're now venturing into the realm of commercial projects! Whether you're in need of outfitting an office, remodeling apartments, or any other commercial space, our skilled team is here to assist you every step of the way.

With Cabinet CNC manufacturing, IVO Cabinets & Surfaces delivers cabinets that not only look stunning but also function flawlessly, providing you with the perfect solution for your space.

Going Commercial

IVO Custom Cabinet Woodshop - Utica, NY

Production Process

Custom cabinetry allows you to choose every detail – from the material & finish to the style of door. There are 4 main stages that an IVO Brand Cabinet goes through before it reaches your home:

1. CUT LIST

We begin by creating a cut list based on your cabinet measurements, allowing us to cut your chosen wood to the desired style and size for assembly. Our CNC Cabinet Machine, equipped with a high-quality finish blade, ensures clean cuts without splintering. Whether you prefer shaker, flat, or raised panel doors, IVO can tailor them to your preferences.

2. ASSEMBLY

Before assembling the cabinet box by joining the sides, back, bottom, and supports, we drill pocket holes to conceal all nails and screws, ensuring a seamless fit. We then secure all joints with wood glue, guaranteeing the cabinet's durability.

3. FINISH

IVO offers two wood finish options: painted and stained. For stained cabinets, we apply two layers of polyurethane to protect the unfinished wood. Painting requires two coats of wood primer for an even finish. After the wood has dried, we install the hardware and doors.

4. HARDWARE

In the final step of our process, we attach the hardware and doors to prevent any damage during installation. With these finishing touches, we proudly present you with cabinets that are uniquely yours.

IVO INSTALLATION

In order to provide a limited lifetime product warranty, IVO Cabinets & Surfaces offers complete installation services for custom cabinetry. This ensures coverage for any possible changes or wood quality issues throughout the life of your home.

Project Prep

Before heading out to your home, we always make sure to bring all the tools and materials we need to properly install your products.

Removal

IVO Cabinets & Surfaces is current on dust control and waste management practices. Prior to cabinet removal, we seal off the other areas of your home to protect it from dust and other debris that may be caused by the demolition process.

Installation

With years of experience designing and installing cabinetry combined with advanced technology & highly specialized tools, we are able to deliver high-quality & precise installations.

Disposal

We'll never leave you with a mess! The IVO Team is equipped to haul away all your demo waste. Rain or shine or if you live in Upstate NY - SNOW, we'll always leave your home cleaner than you left it.

Your time is valuable to us! We want to make sure your IVO cabinetry experience is professional from start to finish.

WARRANTY & CARE

Maintenance

When you choose the IVO Brand Cabinet, rest assured with the peace of mind that your cabinets are virtually maintenance free. With a little soap & water, your cabinets will be good as new. Always make sure to dry your cabinets after cleaning & they will last a lifetime! **NOTE: Wood Warping can occur with any cabinet door.**

To minimize wood warping, a naturally occurring phenomenon, environmental controls such as humidifiers and de-humidifiers or air conditioners are recommended.

Limited Lifetime Warranty

IVO Cabinets & Surfaces is committed to providing all consumers with quality cabinetry products and door solutions. IVO warrants its' products to the original homeowner/purchaser to be free from defects in material and workmanship under residential use for the lifetime of the original purchaser of IVO custom cabinetry.

How to replace a Product Under the Terms of This Warranty?

After inspection, if necessary, our professionals will either replace or repair the defective product.

Some replacement parts are subjected to availability, may not match your existing cabinetry due to changes in the finish and wood over time or may differ from those originally supplied as part of our ongoing product development process.

If you need replacement parts or would like to make a warranty claim, please contact our Customer Service Representatives by email or telephone. All warranty claims must include the model number of the product, copy of the original receipt/contract and a description with the nature of the problem. **View the full warranty at <https://www.ivocabinets.com/wp-content/uploads/2022/04/Custom-Cabinet-Warranty.pdf>**

THANK YOU

*Every client makes IVO possible & we appreciate your business.
Thank you for your continued support!*
